R180 Assembly Guide

COPPER MOUNTAIN
TECHNOLOGIES

What's Required:

- 1-Port R180 VNA
- Phillips Head Screwdriver

STEP 1
Screw the USB bottom enclosure to the 1-Port VNA housing by the M2x5 din 965 screws (4 pcs).

STEP 2
Plug the connector of the USB cable and power supply jack into the appropriate female connectors of the 1-Port VNA.

STEP 3
Insert the top enclosure to the USB bottom enclosure and screw it into the M2.5x12 din 965 screw (1 pc).
